

Thousand Island Solve Sheet

Solve all the mini puzzles before solving coloring the back.

The enumerations for the final solve for each of the 5 puzzles can be found on upside down at the bottom of the page.

Here is the solve for the minis

Convert dots to a1z26 and read in order of presumed shark shape to get message : DRAW LAST TRACK HEARD AT END OF ALBUM X BY KYLIE

Album X by Kylie Minogue ends with the a track called COSMIC

Those letters appear only once in the message so draw a line from C to O to S to M to I and back to C to create a pretty common star shape.

MOVE MUMMIES

Where did the pirate hide his silver dollar pancakes?

UNDER THE "EGGS"

EXHUME

Start by unjumbling the letters based on the clues.

Put the letters in the squares to get UNDER THE EGGS.

It sounds like under the X, which is where a pirate would bury treasure.

Take the letter found under each X in the grid and read them from top to bottom to get MOVE MUMMIES.

This hints at the final solve EXHUME which has an X in it and means to unbury something.

STICKSTOYOUR ... RIBS
1 2 3 4 5 6 7 8 9 10 11 12

Each menu item hints at a phrase with a food that can be filled into the dots next to it.

Use the cents of the price to index into the food item.

Use the dollar to order those letters and get the phrase STICKSTOYOUR which could end with RIBS. RIBS is the final answer

Spot the Dif-

Can you find the 5 differences in the pictures above?

PROSTHETIC = PEG LEG

There are five differences in the pictures. One thing swaps for another. Those things can be solved as one letter apart from each other.

Mark each thing as that letter and read down from top to bottom on the left panel and then the right, you should get prosthetic.

This can be solved to Peg Leg, which is 2 words that are one letter off from each other.

Word Find

Navigate your way through this sea of letters!

ARROW

Solve the word find.

It looks like a maze that is solvable starting at the bottom.

When you solve the maze your path makes the message THINKABOUTYOURCHOICESASYOUCHART-EDYOURWAY.

If you then look at the letters at every intersection (where you had to make a choice) you get the letters ARROW.

Each of the solves for the minis references an image on the “islands” on the back.

ARROW= SIGNPOST

PEG LEG = PIRATE

RIBS = PIRATE

EXHUME = SHOVEL

STAR = STARFISH

Color only the islands that are referenced (there are 2 per puzzle) to see the final answer (cheese burger). The answer is multi colored here based on the 5 puzzles, but that's not how it is solved.
