

# Ghost Patrolling: A Brief Overview

---

Ghosts are spirits locked between this world and the great beyond, unable to move on due to some psychic conflict or unrest. In this state of pure ego they influence their surroundings, leaving clues about the story of their life and death. Each clue contains critical information about the ghost, as long as you have the tools and training to interpret it. If we can gather enough information about the ghost we can capture it. Then, if we can resolve its conflict, we can remove it from this plane of existence entirely.
